

**STATEMENT OF ORIGIN  
&  
GMO Free Certification**

This is to certify that Omega Protein, Inc. is a single ingredient manufacturer. Omega Protein, Inc. derives its Menhaden fishmeal, fish oil, and fish solubles solely from Menhaden (*Brevoortia sp.*). Menhaden are small, herring-like, pelagic, ocean fish. Omega Protein, Inc. certifies that no Prohibited Mammalian Protein Products, as defined by the Food and Drug Administration (FDA) under Regulation 21 CFR Part 589.2000, exist at our processing and storage or within shipments of our fish meal and fish oil products. Omega Protein, Inc. also certifies that all fish processed are wild caught, and are, therefore, GMO free.

Omega Protein, Inc. operates manufacturing facilities at Abbeville, LA, Cameron, LA, Moss Point, MS, and Reedville, VA. Omega Protein, Inc. owns or contracts warehouses at Avondale, LA, East Dubuque, IL, Guntersville, AL, Morgan City, LA, Port Arthur, TX, and St. Louis, MO. These warehouses maintain separate buildings for the storage and shipment of fishmeal.

Transport vehicles must conform to the US BSE Compliance Program as set forth in 21CFR589.2000. When shipped in bulk, the trailers are inspected prior to loading. When shipped in bulk containers or bags, the containers/bags are clean, new packages.

Omega Protein, Inc. products include its FAQ, Special Select and Sea-Lac fish meals, menhaden fish oils and condensed fish solubles. All are processed by reduction from the harvest of a single species of fish, menhaden, which is found in the Gulf of Mexico and Atlantic seaboard.
